- Aluminum Powder Coated Bow Rails, Grab Rails & Helm Seat Base
- White or Black Powder Coat Standard (additional colors available optional)
- Stainless Steel Fuel & Water Fillers
- Thru bolted Stainless Steel Hardware
- Stainless or Copper Through-hull fittings below the waterline

Every Concept boat offers a variety of options the assembly line companies would be hard to match. We have worked long & hard to deliver you the best boat you can buy dollar for dollar, and from bow to stern the highest standards of quality wood free construction. We do not own a chopper gun to blow fiberglass because we hand lay all our boats; all coring including the transom and stringer system is high density composite cell encapsulated in Fiberglass. We fiberglass and chemically bond our hull and deck together with methacrylate (Fuses the fiberglass together). All hardware is stainless & installed with reinforced backing. Rigging is perfectly detailed and engineered for easy access. We back up our product with a lifetime warranty to the first owner and 10 year limited transferrable. All our models meet US Coastguard, NMMA and Euro CE Certification.

OPTIONAL FEATURES

OPTIONAL COCKPIT & TOP

- Color Gel Coat other than White

Concept

The external bracket on our 27' allows a spacious swim platform area, and optional ladder for easy entry. Outboard power today is 30 to 40% better fuel economy, quiet, no corrosion issues and allows for shallow water travel, getting to places others cannot go. Form follows function in the deck, an optional head is in the console and ample seating for 8 people standard, and spacious non-skid deck with lots of room to move for topside activities.
