Concept

We have worked long & hard to deliver you the best boat you can buy dollar for dollar, and from bow to stern the highest standards of quality wood free construction. We do not own a chopper gun to blow fiberglass because we hand-lay all our boats; all coring including the transom and stringer system is high density composite cell encapsulated in Fiberglass. We fiberglass and chemically bond our hull and deck together with methacrylate (fuses the fiberglass together). All hardware is stainless & installed with reinforced backing. Rigging is perfectly detailed and engineered for easy access. We back up our product with a lifetime warranty to the first owner and 10 year limited transferrable. All our models meet US Coastguard, NMMA and Euro CE Certification.

Concept

Our ability to offer you customization, flawless fit and finish with more boat for your money is unparalleled in the industry. Quality, integrity and distinctive style help our clients to retain the best resale value of our product.

The 32' Deep-V hull design delivers a safe, comfortable fast ride. Form follows function, ample seating and floor space; however, Concept also offers many options in seating to customize your individual needs, from L-shape lounges for entertaining to live-well seats for the fisherman, or electric bolsters for the more performance oriented. Concept is the ultimate utilitarian boat for today's discriminating client. For family cruising or getting to the fish first, we welcome personal input to refine every detail to fit our clients boating needs.
